7479 Metropolitan Blvd., Barnhart

RECYCLING FACTS

**Recycling 1 ton of paper saves 17 mature trees, 7,000 gallons of water, 3 cubic yards of landfill space, 2 barrels of oil, and 4000 kilowatt hours of electricity. This is enough energy to power the average American home for 5 months.*

**Approximately 88% of the energy is saved when plastic is made from recycled plastic rather than from the raw materials of gas and oil.*

**We use over 80,000,000,000 aluminum soda cans every year. Recycling one aluminum can saves enough energy to run a television for 3 hours. (EPA)*

County of Jefferson
Solid Waste Division
PO Box 100
Hillsboro, MO 63050

Call to schedule school or residential presentations on recycling and composting:

Dr. Robert Bradshaw
Recycling Coordinator

Phone: 636-797-5043

Fax: 636-797-6120

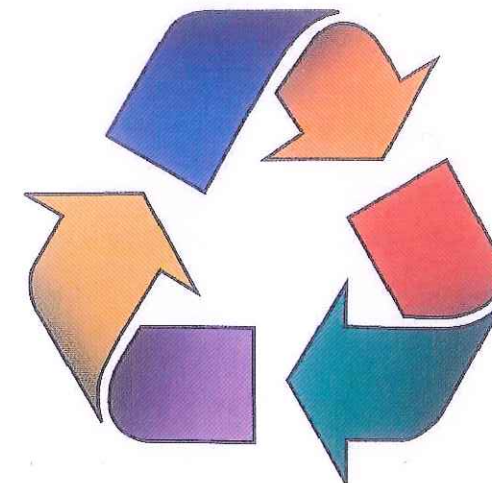

Email: rbradshaw@jeffcomo.org

This project was funded by the St. Louis-Jefferson Solid Waste Management District and the Missouri Department of Natural Resources.
