Subject: Welcome to E-Verify – Your E-Verify Enrollment Confirmation

Welcome to E-Verify. You have successfully enrolled your company in the program.

Now that your company is enrolled, you can register additional users who need access to E-Verify and choose whether to give them program administrator or general user access. During the company enrollment process, you already registered yourself to use E-Verify. Here is your login information:

Your Program Administrator User ID: [REDACTED]

Your Temporary Password: [REDACTED]

There are still a few things you need to do before you can begin using E-Verify. Just follow the steps below to get started:

1. Go to the E-Verify Web site at <https://www.vis-dhs.com/WebBP>.

You'll visit this Web site every time you log in to E-Verify to verify your employees. We recommend you "bookmark" or save this Web site as a "favorite" so you'll have easy access to it in the future.

2. Log in to E-Verify using the user ID and temporary password listed above.

Once you log in, you'll be required to change your password. Your new password must meet our password security standards (we'll tell you more about this when you change your password).

3. Create your password challenge questions.

This is really important because if you ever forget your password, you can answer the password challenge questions you created and reset your password without having to contact us.

4. Take the E-Verify online tutorial.

Though we've put a lot of effort into making E-Verify easy to use, work eligibility and immigration are complicated subjects. The required online tutorial will teach you how to use E-Verify and what you need to do to follow the rules of the program. You don't have to take the entire tutorial at one time, but you will have to complete it and pass the mastery test before you can begin using E-Verify. You can access the tutorial by clicking on the "Tutorial" link at the top right side of the E-Verify home page after you've logged in.

5. Register additional users (if necessary).

After you've completed the tutorial and have passed the mastery test, you can register additional users by clicking on the "Add User" link on the left menu of the E-Verify home page. When you register a new user, you can choose between program administrator and general user access. Anyone with program administrator access can add, delete, modify and reset the passwords of other program administrator and general user accounts.

SHARING USER IDs AND PASSWORDS IS NOT ALLOWED so if you have additional people who will use E-Verify, you must register them with their own user IDs and passwords. You're ultimately responsible for any activity associated with your user ID so don't share your password with anyone—and that includes us. (If you ever contact our help desk, we'll never ask for your password either.)
