“I want to stress that we are not closing businesses,” stated Gannon. However, temporary adjustments for public health reasons are needed at this time.

In addition, all regular, in person meetings of Boards and Commissions of Jefferson County shall, until further notice, be cancelled at this time.

The decision to take these steps has not been taken lightly. We have been advised by medical professionals that action was needed on our part, to help prevent escalating the situation in Jefferson County.
I am very sensitive to the situation that our business owners are in and at the same time, we must do what we can to ensure CDC recommendations and other health officials and are being adhered to, in order to adequately address this virus.

This order is in line with the Presidents “15 days to slow the spread” action plan. We are continuing and will continue to monitor events on a continual basis.

Gannon stated, “It is very important that we all remain calm, not to buy in to panic or fear.” We can all help our local businesses by continuing to support them. “I am asking all of our citizens to help us stop the spread of this virus by following the guidelines that have been published,” said Gannon. By following the recommendations of our health officials, we can do our part in limiting the spread of this virus.
