

PUBLIC INFORMATION SHEET

1. **Project Identification:** Old State Route 21 @ E/W Four Ridge
STP-5462 (608)
2. **Resident Engineer:** J.R. Hamilton
(636) 797-6126
3. **County's Representative:** John May
4. **County's Consultant:** H.R. Green
5. **Council District:** District 2 & District 7
6. **Approximate Date for Approved Final Plans:** April 2019
7. **Additional Right-Of-Way Required:** Yes - Approx. 1.22 Acres
8. **Approximate Date of Right-Of-Way Acquisition:** 2018 through March 2019
9. **Length of Road or Bridge:** 0.35 Miles
10. **Bridge Rating and Load Posting:** N/A
11. **Contract Amount:** \$1,850,000.00
Low Bid: Yes, of 5 Bidders
Funding: 20% Local - 80% Federal
12. **Contractor:** Gershenson Construction Co.
13. **Number of Working Days:** 145
14. **Estimated Construction Starting Date:** November 18th, 2019
15. **Estimated Completion Date:** Fall/Winter 2020
16. **Miscellaneous Information** (location, description of work, detour roads, utilities relocation, message boards, shoulder width, etc.):
See Page 2

The county will be reconstructing 0.35 total miles of roadway (0.15 miles on Old State Rt. 21, and 0.20 miles on East and West Four Ridge Roads. Right turn/acceleration lanes will be added to the intersections of East and West Four Ridge Road. The connecting roads will have a new horizontal and vertical alignment and will provide two-12 foot lanes with added shoulders. Old State Rt. 21 will receive an asphalt overlay and shoulder reconstruction. Roadway pavement surfaces will be asphaltic concrete. Currently the intersection has very poor sight distance and approaching geometrics. The high speed of travel on Old State Rt. 21 makes it difficult and dangerous to make turn movements onto or across this road. The project will provide smoother, straighter approaches to Old State Rt. 21, proper site distance, and right turn lanes onto and off Old State Rt. 21. This project proposes site distances of 500ft.+ to the North, compared with 200ft. now.

Utility Work will continue through the Fall. The C-1 Water District will be starting their water main relocation work on November 18th with approx. 1,500 L.F of piping to be installed.

The awarded contractor, Gerhsenson Construction Co., will be starting work after November 18th with the large amount of clearing and grubbing on both the East/West side of Old State Route 21. While the water line is currently being relocated, Gershenson will be starting to excavate for the newly aligned intersection for East Four Ridge Road.

Work will continue through the winter months as the weather allows.
